VALUE OF ANIMALS ON FARMS The department of agriculture at Washington, upon statistics gathered from all parts of the country, reports a decrease of 3,563,107 sheep, as compared with one year ago. The total number of sheep in the United States is now set down at 44.753.314 California heads the list of states as to the number of sheep, her total being 6,009,608. Texas is next, with 4,761 831 then 6,009,608. Texas is next, with 4, int sor monopolic, with 4 503,913 then New Mexico, with 4,025 742. Next in the list is Gregor, with 2,598,029, followed by Michigan, with 2,156 127. Howa has only 425,93 The number credited to Washington territory is 555,430 But though the number of sheep in California greatly exceeds the number in any other state,

greatly exceeds the number in any other state, their value is put much below that of the value of sheep in Ohlo Thus, California's 5 000,048 sheep are said to be worth \$10,728 192 while 4 562 913 have a value of \$11,533,675 Agam, though Oregon has almost as many sheep New York and Pennsylvania together, yet words, the average value of sheep in Oregon is \$1 42, against \$3 30 in New York and \$2 81 in Pennsylvania. The value of all the sheep of the country is reckoned at \$89 872,839

Iowa has the first place in the number and raive of swine, followed next in order by Missouri, Illinois and Indiana. The total number of swine in the country is put down at 44.512 -836, with a value of \$200,043 221. Oregon and Washington figure very lightly in this list, the first being credited with 229,920 swims, worth \$650,423, and the last with 90,152, worth \$334,-

Of horses the whole number in the United States is reckoned at \$12,495,744, worth \$201, 655,750 Illinois has the sading place in the number and value of borses. But the average value of borses is much higher in the Eistern than in the Western States in New York it is \$48 39, in Pennsylvania it is \$94 83, in Massa chasetts it is \$106 64, while in Illinois it is \$76 61, in Iowa \$73 86, in California \$61, and in Oregon \$53 92. So much better is the average house at the East than at the West. Oragon's herses are said to number 167,775, and to have a total value of \$9,04,603, those of Washington are said to number \$4,237, and to have a total value of \$6,018,458

The value of cows, oxen and other cattle con-siderably exceeds the value of horses—the lotal being \$1,04,037,515 Of milch cows the num-ber is 14 522,083 New York heads the list with ber is 14 582,083 New York heads the list with 1,495 197, and Iowa is next, with 1 213 002. Hilmois and Pennsylvania follow, with 987 476 and 914,148 respectively Oregon is reported to contain 75,959 cows, valued at \$2,392,709, and Washington territory 44,534, valued at \$1,086,020 In Oregon the average value of cows is put at \$31 50, in Massachusetts, \$35 in Iowa, \$25 18 The lowest values are in the conthern States, as Alabama, Massiesippi and Texas, where coware rated at abon. \$31 each are rated at abon. \$10 each
Of "oxen and other cattle" the total number

in the tables is 33 511,750, naving a total value of \$163 137,950. Texas heads this list with \$5,084,750 animals, valued at \$75,972 232. The next state is flow but following at a long distance, her total number b 10g 2,116,417, valued at \$47,551 232. The lists give Oregon t43 245 California 6-0-302, Wash agton territory 300 670, Montana 51, 31 The Intal value of "oxen and other cattle? in Oregon is set down at \$15 -289,941, in California at \$13 507 3 5, and in Washington at \$7.017844 In Oregon this description of cattle is said to have an average value of \$23.77 a head, in California \$20.64, in nehington \$2344, in Texas \$1214, and in So far as Oregon is concerned, it is curious to

contrast the figures of the department of agri-culture at Washington with the returns made by our assessors. Thus, the value of cattle in Ore-gon, as published by the secretary of state from the returns of the assessment of 185.-6, was but \$5,888,460, the value of sheep but \$2,350,226, and the value of swine but \$230,008. The secretary's report does not state the number of catlle, but it puts the number of sheep at 1,496,927 It is remarkable that the statistician of the department of agriculture, taking his data mainly from the floc-unaters themselves, has been able to assign to Oregon lover one mil-lich more sheep than the flockmasters could return to the assessors for the nurneess of taxation Again, it is singular that the aggregate value of cows, oxen and other cattle, reported by the assessors, is but \$5,598,466, when the statisfician of the department of agriculture is able to foot up a value for the same animals of The reader may judge for him which statement of the two is more nearly

Gen Tannatt thinks that THE OREGOVIAN is on the wrong side in its opposition to the de-pendent pension bill, but the general brings no pendent pension only out the general brings ac forcible array of fact or argument to existin his views The Original Nover favored the Mexican pension bill, and expressed nothing but regret that the president a lower it to become a law Gen Brings and the Union soldings in con-gress opposed this Mexican pension bill because gress opposed this mexicult pursuant in obscuses the involved the same v come principle as the descrimination between the soldier who readdered real, as separated from more nominal between a dependent veteran and a shirk. This (Reconstantial objected to the Mexican war pens on bill because the bill did not consider service against the flag as just cause for forfeiture of any pension for previous loyal service. This paper knows enough about the pension business to know that it is not no essary to open the door to thousands of unit try skulks, shirks and frauds in order to benefit a sent number of deserving veterans There is no practical obstacle to av in framing a bill that will give every soldier a pension whose condition makes him a proper subject of relief. Let congress pass a simple law authorizing the pension bureau to investi gate through its special agents into the condion of all veterans reported by G. A. R. mosts to the pension department as paupers, with a full local history of the querits of the case. If the case is one of pretended dependence, or it it is of real dependence on the part of some army shirk or bounty bidder or hospital refugee. no relief should be extended. There is no hardship, no injustice, in allowing the army rubbip, who, by evasion of duty, increased the danger and duties of the genuine soldier, to take care of himself, to play tramp, or to lounge to and fro between almshouse and workhouse These are the proper places where the army shirk and mercenary bounty bidder should sur-

Let the pension bureau sift out the wheat from this army chaff and then endorse the ap plications of all worthy army pauters for action by congress Special bills can be passed help ing all worthy cases, or a general bill several discriminating between pauper veterning of gen unce service and good character, and pauper shirks and the bomb-proof boun y bidders. The number of genuine cases that are entitled to relief is in our judgment quite small, the number of cases of surviving shirks who would get the benefit of a sweeping and ill guarded dependent position will in sort tree. pendent pension bill is very large. Vermont has established a soldiers' home, and finds the number of cases of pasper veterans who are not already the recipients of pension relief is The original estimate for the cost of the ar

rears of pension act was but \$50,000 000, and it has cost already some \$220 000,000. The experience of the past is that every pension bill casts enormously above its highest original estimate. We do not plead that the government has a right ask a dependent and worthy veteran whath be was a genuine soldier, but he government bes a right to consider whether he was a soldier or whether he was only a military shirk and sucker, or a mercenary fellow who usver lifted his hand for the flag until the example of legging particlem had belled the bounties up to the highest point during the last year of the

war The government in justice must disarten inste between its war eagles and the turkey buzzards of the conflict. A sincere soldier who sought as far as possible to rander genuine service, whether long or short, can he afforded government relief without opening the door to a cloud of army loughts, too many of whom to the war to be more than the additional of the permute headifulates of door to a cloud of army logdist, too many or whom to-day are the perpused beneficiaries of the arream of pension act. The army locust, the 1 mon turkey buzzard, ought to go to the almshouse, he is not a fit candidate for a pen-sion or for a sold'er's home. The ex confeder-ate door keeper Canady was put in place by Lo-gan. The South does take better care of its of-ficers than the North, but it does it man fashion

through politics and not through pension acts
THE OREGORIAN is not aware that all that gives
the semblance of home to the soldiers' homes
comes from the G. A. R. The principal sol diers homes of he country are liberally and entirely supported by the federal government. The few state soldiers' homes are but partially supported through annual apprortistions by the state legislature. Dependent soldiers, who were military frauds, deserve no hing better than the alisabouse, and do undent soldiers who were upt frauds can get relief without passing a military emmines pension act, with the car-tainty that nine-tenths of the "bus load were government paragites, polinoons and army rubpublic place upon the Union veterans, because it has not resisted as it should the passage of it quarted pension acts. There are too man able-hodged army pensioners to day under pres ent legislation to make the public treat with patience or respec such a measure as the pauper

GRAIN POOL IN EASTERN WASHING

The farmers of hat part of Eastern Washing ton south of Snake river are trying to induce the Northern Pacific to extend its line from Waltula to and beyond Walla Walla. The effort has taken the form of a combination whose members agree to ship their spire product for two years at a rate of S4 per tan. The agreement is In the form of a power of attorney authorizing Frank W Paine, John F. Boyer and David W Small to make contracts with a railroad "now constructed and operated or to be constructed or operated" for ship ment of their grain to "some seaport on the Pacific coast," For violation of the conditions of the contract every signer blads bimself to pay 6 cents per bushel or \$2 per too

About three hur dred farmers have joined this pool, representing over 50,000 tons of wheat each season. This will be offered at a fixed rate of \$4 per ton for two years to the Northern Pacific if it will extend is line into the Walla Walla

It is believed that the Northern Pacific would begind to accept this proposition, but under its agreement with the Oregon Railway & Navigntion company it is bound to keep out of the lat ter's territory But a way around this contract will probably be found. In all likelihood a local company will be formed to build a line from Walla Walla connecting with the Northern Pa-clife, and the latter will supply the necessary money. It is not doubted in the Walla Walla country that alread either by or in the interest of the Northern Pacifia will be built in time to carry out this year's crop By the terms of the agreement the trustees

are empowered to make a contract for the pool with the O R. & N, that being the only road already "constructed and operated," only road already "constructed and operated," but this is not the intention and it is eafe to say that it will not be door. The feeling in the country against the Oregon Raliway and Navigation is very bitter. The purpose of the combination is not more to got an immediate reduction than to escure permanent competition.

At a conference with the business men of Astoria hast week, General Adm Anderson, of the Northern Pacific, said "iff congress had in view the explicitly interests of the Canadian Pa-

view the exclusive interests of the Canadian Pacific railroad and the Pacific Mail Steamship company, it could have done nothing better than to pass the interstate commerce bill. It will increase the income of the Canadian Pacific Railroad company three millions of dollars this

### EFRECTIVE ANSWERS

It is one of Henry George's dogmatic assertions that "there is no such thing as a fee simple in land, there is no one on earth that can rightfully make a grant of exclusive ownership in land." The argument in support of this posi-tion is this, viz. Man bas a right to own only what he produces, his clothes, his house, his furniture, are the products of his labor, and in them he has the right of ownership. But land is not the product of his labor and he can have no right to own it. A writer in the March number of the Forum

examines this position as to land and completely refutes its author "Man," says this writer, "can no more produce wood, wool or iron than he can produce and All he can do is to give utility to these materials by changing their form and location, but the materials themselves are the bounty of nature." Then the ownered in the primarily in the first application of labor, which is the first effort at appropriation. But land has no utility except what is imparted to it by labor, any more than wood, wood, or Iron
If a man has a right to own the latter because
he has imparted utility to them, why has he not
the enn e right to own the former for the same

This is but a very brief statement of an ex God made the land he also male the tree, and if a man can acquire property in the latter why

not in the former

The sume writer also upsats George's coc-The same writer and application of the merca-ed successed value by virtue of the merca-ed the community. Mr wealth and prigr as of the community Mr George holds to it this in record value, this "in-erned increment," rightly belongs to the state but would not the doctrine, if true of land, be true of all other property? Says the writer in the Farran. "The doctrine which will take consession of the uncurried increment in long will instity the belong of increment in long will justify the taking of increased values, not only of productive investments, personal property and improvements, but of personal service also, which would be fatal to all industrial and sociel progress?" This is unanswerable

One citizen reports himself who doesn't want One citizen reports bimself who doesn't want any appropriations for Oregon and who thinks therefore that the president's refusal to eign the river and harbor bill was wise. This citizen sends in a brief letter, which we print to-day As The Oregovian don't care to call special at-tention to this eccentric citizen it doesn't append his full name to the letter. It may say, howev-er, that he has not long been a resident of Creer, that he has not long been a resident of Cre-gon and is governed by theoretical rather than practical views On that part of his platform which calls for abandonment of the protective tariff not a single one of the manufacture, states could be carried, and on that part of it which demands appropriations for public works not a single one of the non-manufacturing states a democrat to do so. With some the party no-t on is still all in all.

A considerable force of men has been put at work upon the Seattle, Lake Shore & Eastern railway This read is to start at Seattle, pass round the north end of Lake Washington, and cross the Cascade mountains by the Snoqualmic pass. It is said that a section of twenty miles will be come at the late.

It is a relief to know that winter is over practically in the stock raising sections of the state, and that the loss is, comparatively, light. The snow is gone both in Eastern and Southern Oregon, and the grass is growing finely averywhere.

Thre is real foundation for the report that the Northern Paudic management is seriously chn-sidering a plan for construction of a read from Waitula down the Colombia river on the north side. Careful estimates have recordly bean eredit, and if the financial arrangements on the road will undoubledly be built.

"Churish conduct of the ex-herifi of Buff-alo," is the Salem attemant a headline to the dipatches from Washington that give an account of the closing hours of the session of congress

The school meeting tast night old two good things—reduced tax stion and declined to adopt the kindergarten system

There will be individual losses and see me stock will change hands but the percentage dying will be but a little more than the average calculated upon each year. A CHINOOK IN UNATILLA AND MORROW COUN

PERDLETON, March "—The past lew days have been windy with sonshine now and their but with a tendency to rain. It is rather pleasant for March Lrass is growin, splendidy, Stock are doing well since the cold sing. No great less of stock has occurred. Pive per cent will cover the less felly in Ungarity course. Les Morrer the less loss fully in Umatilis county In Morrow the loss will reach 10 per cent. The snow is all gone ex BREAK UP OF WINTER RAST OF THE DLUE MOUNTAINS

BAKER CITY, March - The weather is breaking and every indication is favorable to continued ing and every indication is tayors as to continued good spring weather. There has been but a small loss of stock little if any more than usual. The farmers had plenty of feed to do them until this time. Horses are being driven to he bills and cartle will go within ten days. A few sheepmen haye suffered but generally it may be said that the losses are simply usual. Grass is good where the snow is off. We have had a warm rain or chinook for three days.

now is off. We have had a warm rain or chinook for three days
LIGHT 1088 IN WAECO
From The Delies Times My notalineer
The winter has broken and we earn that cattle in the country districts can mange to live now although the grass is not very nutriticus. The fact is that sheepmen and cattlemen most come to the conclusion that if they desire to follow the stock business it is necessary to prepare feed for winter as any scasson may come upon them with unexpected severity. The loss this winner will not be much easiling our trage and it will have the effect of taking care of the submids which constitute their wealth.

ieaching our stock raisers a good practical tess in of taking care of the animals which constitute their wealth

BRAYL LOSS IN MORROW COUNTY

From the Hoppiner Cauchts

Fetures from the sheep ranches are now b indicated their stocks of the sheep their stocks of the factors are now b indicated that the sheep insist in the sheep in the sheep considering the scarchy of hay and the full month of show, the experience to sheep hen has been the roughest for years.

Near Rhea creek Jim Williams inst but i head of sheep out of 1000 and had lay left. Frank 6-ft in lim haufed hay twelve miles into B or he in 1 masker lost 250 one 2200. Brown brothers is 15 out of 400. Even in the sheep being and the sheep out of 100 loss about 500. Frank Adkins is all to be a very heavy loser, his sheep being mostly well along in years. W. B. Conbingbane acted the good samaritan to all the stray stock around the New four ranch. He unfenced his straw stacks and gave every critter free access to the feel besidest exepting his troughs silled with water for them to drink between meals. The loss among the Pen had been to the sheep is roughly estimated at from 1200 to 100. Charlie Stulle loses shout 100 head. Up had plenty of hay having sent his cathed down to the Geinger ranch. F. Campbell lost about 120 head, and McLaren brothers 112. In the Dry Fork region the C. Fell band of 1701 loses? John Woodward and Bob Johnson lose 250 sach Ward brothers 75 and Mr. Christianson 12. Silas French's sheep are fat and out of 5500 be loses but for head in the sheep are fat and out of 5500 be loses but for head in the sheep are fat and out of 5500 be fores but in the same at langue, and they vary in we are not been to the s

THE POOKET VETO.

THE POURET VETO.

TO THE ROITOR OF THE OREGENIAM MATCHE TO THE ROITOR OF THE OREGENIAM In your comments of the 5th and 6th on the fail on of the river and harbor bill you used that what renders the course of the president inexcus able is the fact that the national treasury is the fact that the national treasury is plethoric bloody for the president of the surpline are not fell by the people and the people are not calling so loudly for reluction of taxes which they pay without knowing the reluction of the very undesirable plethoric treasury when considered in connection with the declarations of both parties in less and the subsequent history of arife reform and the question of the surplus whind be one erry good reason why there should be some hait called in this march of extra quant appropriations. Only a few weeks stace a war cloud; not so large in fact, as a py, he-m pain the parties and the substactivity they not consume that should not be our and immediately the volume. tures began to settle about the dome by the capi of to consume that plethoric body. The re-taination bill was passed and the war cloud he came pagnified to such due a look that the oct; sillor was metural that an appropriation of a few hundred million dollars was necessary for cast defenses.

or sillow was unturn! that un appropriation of a few hundred millon dollars was necessary for cast defenses.

John 13 with the latter came the dependent pension will proposed, it is defined of the surp 2 abunded of the proposed by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a number of republicus 3 by 1 adals a caturpent with a ten enemand 1 contingent refused to consider any meast refor the reduction of the tariff. This tat ter measure the presid at had in bo h bis a siges urged upon congress and not vibatandus, the presence of the present of the expect of the sign of the present of the support of the tory, and the support of the present of the general good as he adleged notwithstanding state great abuses contained therein.

The administration together with the intelligent and informed public mind know of and hear the clamor of the people in the voice of strikes lock outs conventions of laboring organizations and almost civil revolution, calling so loudly for reflect from burdens whose weight is exhausting at their life power without any adequate return while large numbers of them are so binated by the counsel of high tariff men that they have their very life blood drawn as the leech would take it and which they pay without knowing it.

Does not the very fact that a journal [so able as The Oragons has breakers of the burdens of the people of the people of the presence of the people of

mand!
We think considering the humor congress has
displayed in these matters, that the president as
the great neutral brauch of the lawmaking department of the government, has acted wisely in these ment of the government, has access that a matters
Let the surplus increase until it stands like Ossa

THE OBEW OF THE ' SOUTHARD"

PORTLAND March 5
TO THE EDITOR OF THE OREGONIAN To the Editor of the Oregonian

In your Sendey issue you state: that the crew of the ship O. S. Southard were a hard looking set of Greeks and that the boarding houses would not take as in. Why did they not take as in? Be cause we didn't want to go, we had been there before. All their runners in Abtoria offered als jobs, such as making nets and painting house for S. a day etc., but it would not wark and after passing the fire-water around and seeing that none of us would leave the ship, they went schore in discust and this is the reason we get this "send-off." If we had all gone to their houses we would have been the finest crew in the world. Hy your reporter would vist the carpenter of the ship hy might find out why we are called such nurses and to justice to Usic, Walker and the crew's I hose you will publish this reply.

THE KINDERGABIES LAW.

PORTLAND, March of The ORPLONIAN With 1st of tails the public are not familiar. It has not appeared, so far as the writer has outloed in the daily or weekly journals. We may presume that its derails refer chefly to the manner in which it shall be/carried into effect. It is one of those it choative laws like axeal option made operative by a pupular vo e. In cities towns or cistricts of 500 inhabitiants we understand thats did lengarity of the woters so decide. It evidently has the same supported from the same lunds if this majority of the voters so decide. It evidently has the same supported from the same lunds if this majority of the voters so decide. It evidently has the same supported from the same lunds if the majority of the voters so decide. It evidently has the same school department the proper appeared to that syclem. Its legality rests like other departments a sinterior arrangements of the free schools upon the instructions given the directors at the annual special school meetings by a majority of the legal voters from the same innounced to that sychial school meetings by a majority of the legal voters from the same innounced and county school funds an unably in the same ratio per capita as older children. We suppose the new law allows children. The kindergatten metalout and range of teaching have been sided in other clies and countries and in our own as well. They have been found admirably adabated to run than attention and interest of these you gethidren. They use object lessons and oral teachings. Their drift two or three hours a day does no harm to mind or body, but benefits both Visitors to an school sepecially mothers and income and one of the strength of the principal supprove and commend the system. Its theory is reasonable. It practically files the gap between the free hours and one of the strength of the suppose of the principal supprove and commend the system. Its theory is reasonable. It practically files the gap between the free hours and the proper and can be suppose

the expense and caro too great for the resources of the the control of the contro

ble

Some voters may object to its cost but if it is wise in itself it has the right to this man of mads drawn by the childr or it his age. If it is unwise let the law excluderrom the fist all below the a.e of o instead of the age of 4 years. If it is unwise let the evidence be given. Let the question be tried not only by vote but in the nubits solons.

G. H. ATKINSON.

Terched, Indeed, Are those whom a confirmed tendency to billious ness subject to the various and changeful symptoms indicative of liver compilator. Nauses sick bendeehe, constipation furred tougue an un pleasant bre th a call sharp part in the neigh horhood of the affected organ impurity of the blood and loss of appetite signatice it as one of the most distressing, as it is one of the most common of malar fea. There is how ver a bening aspecial for the disease and all its unpleasant manifestations. It is the concurrent testimany of the nub cine for the cisease and all its unpleasant manifestations. It is the concurrent testimany of the public and the medical profession that Hostotters Stornach Buters is a medicine which achieves results speedily felt thorough and besiden. Besides recitiving liver disorder it toylogorates the feeble conquers kidney and bladder complaints, and hast configuration of the second covering from enfectiling for a flavorence of these recovering from enfectiling for a flavorence of the second processing from enfecting for fever and agree

Tic Oregonian. LOCAL AND GENERAL.

THE ORIGON STYLE.—The Grammer School Index appears this mouth as an eight-page paper and gives evidence of prosperity. There is life on the editorial page. It esems that the Index and the High School Student have crossed swords. Here are extracts from the leading article: "The editor of the Student, in making his last appearance before a long-unifering public according to the student, in making his last appearance before a long-unifering public comes forward with his usual egotism and impudence, to announce that "The Grammiar School Index, with his permission, is modeled after the Student, as he (J. Hunter) published it." He further proclaims that we acted upon his suggestions, etc., and that he 'encouraged' us in our humble efforts. We had not beard that he had taken charge of the tree press of America. If the gentleman will come around and go through our waste-basket he will find part of a copy of the 'valuable suggestions' mentioned above. The rest of it was eaten by a thoroughbred setter pup, which was prowing around seeking what he might devour. He died two hours later in great agony." Truly the Index has engulet on to the Oregon style.

No Peconnary Loss in a Death.—In the U. S. circuit court yesterday the case of ex parte.

NEW CLUB ORGANIZED .- Last night permaeffected. This is an offshoot of the Arlington effected. This is an offshoot of the Arlington club, with a great deal of new material, and its plan in a general way will follow the Arlington. It numbers about forty gentlemen. They met at the council chamber last night, Mr. F. Dr. kum presiding, and elected the following directors: C. B. Hellinger, Samuel Heisthu, J. P. Shaw, Edward Cookingham, W. F. Burrell, W. T. Atwood, George H. Dutham, Dr. J. W. Hill and Charles Francis Beebe. Committees were appointed on expenditures, on securing a building for a club house, and on the advisability of incorporating. After the meeting adjourned the directors elected the following officers: Fresident, C. H. Beillinger; vice-optendent, Samuel Heisthu; secretary, J. P. Shaw; tressurer, Walter F. Burrell.

HARRY HROWN'S BENEFIT.—The grand com-

Waiter F. Berrell.

HARRY BROWN'S BENEFIT.—The grand complimentary benefit to the popular comedian, Herry Brown, promises to be a must decided success. The sale of tickets, which commenced sesterday, has been very gratifying to the beneficiary, and testifies very strengty to the favorite position this gentleman holds with the public of Portland. As a very attractive bill is offered for the occasion, there is little doubtout that a large andience will be present on Friday evening: at least, such is to be hoped Mies Hattie Starr, well known to the putrons of the Casino, will be associated with Mr. Brows on that occasion and no doubt her friends will turn out to welcome her.

Collarse of a Bann.—About 6 o'clock Sun-

COLLAPSE OF A BARN.-About & o'clock Sun-COLLARSE OF A BARN.—About & o'clock Sonday night a barn belonging to Edward Hazeltine, situate on Pertland Heigh s, tumbled in with a loud crash, startling the neighborhood. Two valuable borses were buried under the fallen timbers, and their groans were fearful. The neighbors went to work to extricate the animals, but one of them died before he could be released. J. W. Bailey, while assisting in rescuing the horses, was struck in the face by a piece of ecantiling, outling a deep and painful gab. Mr. Hazelline, in going to a neighbor's bouse in his bare feet, ran a nail into bis right foct, and is laid up, suffering junch pain.

Out and is,—The man who fell off the

Our and in.—The man who fell off the wharf Saturday pight, at the foot of Oak street,

what Sainday pight, at the foct of Oak street, was Ed. McGrath, who had just been released from the county juli, and who took another opportunity to clatinglish himself. McGrath was arrested some weeks ago for assaulting one cohen in H. Wise's place with a pistol, and got out by the grand jury finding not a true bill. At the time he went overboard be was to company of B. McGrath with him from durance vile. McGrath after his cold bath again got full and was locked up. His friend had sense enough to mend his evil ways.

ENTIBLY TOO IMPERTINENT.—The Goshen correspondent of the Lebanon Express furnishes the following startling news to that paper: "A certain young lady residing not a thousand miles from the western point of Mount Pisgah purchased twelve pounds of cotton bathing from our merchant during the week. What does it indicate?" Give it up. Perhaps she is preparing to coast down Mount Pisgah. If that correspondent links in this section and made himself so fresh concerning the purchases of Portland ladies he would need to be padded all over a foot hinks.

Ross Still Missing .- At last accounts the

Wm. Simpson, a young man arrested for drunk-enness, fell out of his bunk in the city jail and mmediately afterwards stricken with para-Simpson was taken to the Good Samari-ospital for treatment, and Saturday be and Saturday be

brief in berrow not to exceed \$13,000 to be used kinding kinders. J. R. N. REWELL day.

J. R. N. SELLWOOD.

Senting 6. J. H. Hall the report was received the state of the well-know son of John Simpson, the well-know the state of the state SKULL CRUSHED.-Wm, Simpson, aged 21, a SKULI CRISHED.—Wm. Simpson, aged 2f, a son of John Simpson, the well-known farmer of Grand Ronde, was chopping a tree down Saturday afternoon on his father's place, when the tree fell on him and crushed his skull. Doctor Tyler Smith, of Sheridan, was called to attend the injured man. It is thought Simpson will die.

SUNDAY SCHOOL WORKERS.-The second annual convention of the Oregon State Sunday School association meets this evening in the Presbyterian church, Salem. Those attending will be returned at one-fifth regular fare. It is hoped that there will be a good representation from the Portland Sunday schools.

from the Portland Sunday schools.

INSAN):.—Henry Kyle, a native of Illinois, 23
years of age and a farmer, was examined by
Dre. Strong and Wilson yesterday and ordered
committed to the insane asplum. The commitment papers state that Kyle is oblivens to his
surroundings; cause of insanity unknown. Kyle
was taken to Salem yesterday.

TWO TIMBER DECISIONS.

Two cases of the United States vs. Weldler & Ordway came up in the United States elecule court yesterday on demurrer to the defense.

The first case was brought to recover \$72,000 for timber cut on the lands of the United States and brought to Portland and converted into lumber. The second was to recover \$7500 for timber cut on the same lands and made into card woom the land was the property of the control of the same lands and made into card woom the land was the property of the control of the same lands and made into card woom the land was the property of the control of the same and that the land was the property of the control of the same of the property of the control of the same of the property of the same of the property of the control of the same of the same of the property of the same of the TWO TIMBER DECISIONS.

A sure indication of the approaching spring is the fact that over fifty cases of new spring military have been recived at the Bouquet. The ladies are on the qui rive, and those who have had a peep behind the curtains admit that if ever there was poetry in millinery, it will be revealed this season.

NOTES FROM THE DALLES.

THE DALLES, March 5.

Elder James M. Allen, an old and highly respected citizen of this county, residing at Boyd, died at his home regently.

J. B. Garrison's by ultry yards are being largely patronized. Every mall brings orders for either eggs or fowls. His Wyandottes take the lead. A musicale will be given by the music department of Pacific university at the ladder's hall this evening, under direction of the teacher, Mrs. Edwards.

A nustcaic will be given by the music department of Pacific university at the ladies' hall this evening, under direction of the teacher, Mrs. Edwards.

The funeral of Mrs. A. B. Todd, an account of whose Ceath was published in to-day's Ohs. CONIAN, will take blue to monrow at h. A. M. at the Congregational church.

The circuit court which has been in session for three weeks will adjourn next week. Many cases that are ready for trial will have to be continued for the term for want of time to try them.

The case of the state vs. Loyd Miller, charged with stelling cattle, was on trial from Monday on the Friend of the term for want of time to try them.

The case of the state vs. Loyd Miller, charged with stelling cattle, was on trial from Monday on the Friend of the term for want of time to try was to-day discharged from further consideration of the case leave being unable to agree. It is rumered that they stood nine for requittal and three for courterlon.

The case of the state vs. George Gardiner, charged with the nurder of Jack Hallaran at the Caseades in December last, is sufficient at the Caseades in December last, is sufficient at the Caseades in Court then adjourned until Monday numer to court then adjourned until Monday numer to sufficient the sufficient which has been on the hills for some time his about all disappeared and the spring rates have set in. This is a welcome change to farmers and stock teen as there is but little grass in the country and stock is in poor condition to stand severe weather. The loss of stock has already been quite heavy.

On Saturday evening last the academy class of Trave a literary and musical entertainment at the lies last severe weather. The loss of stock has already been quite beavy.

On Saturday wenting last the academy class of Trave a literary and musical entertainment at the last some process of the class, J. W. Lysens.

Harra son Son B. Oatman, at 114 First Street, Hara i troe line of real estate, which he will offer

SCHOOL MEETING.

A Tax of Three and a Half Mills Levied for this Year.

Good Financial Bhowing-The Bonded Indebtedness to be Reduced \$10,000-The Kindergarten Voted Down.

The approan meeting of the catherene of schiol of strict. No. 1, Multinomia country, was held at the court house in this city hast evening. The meeting was called to order by P. Wasserman, chairman of the bond of school directors. The clerk read the call for ithe meeting, setting forth the objects of the meeting. he meeting.

The minutes of the last annual meeting were

ead and approved.

The board of directors then submitted the joilowing report.

Directors' Report.

Directors' Report.

To the Tax-Payers of School District No. 1, Multinomal County, Or.—Laddes and Gendemen: We
berewith submit our annual report for the rehool
year ending to-day:

We have during the past year painted and repaired all the school buildings in the district and
they are now in excellent condition and well
adapte. for the work designed for them, The
work has been done by the board at a cost of
\$431. The ordinance for the placing of the sewer
in Harrison street having been passed, sermited
the construction of new vaults in the Harrison
street school, which vaults are now connected
with the new sewer, and the health of the school
is brought up to a high standard. We have plat
for the completion of the High school, the details
of which were given in our last report; the amount
due was \$1346 it.

We have openent new school on Carter's hill.

room it the High school.

This has added four persons to the corp of teachers—there in gramman grades and one in he higher grade of mathematics. Whe principal sud superior is the corp of teachers—there is gramman grades and one in he higher grade of mathematics. Whe principal sud superior are principal sud superior and High schools—and have substituted therefor principal assistants in Harrison and Falling schools, and Professor Miher has been added to the High school corps.

We have employed autorneys to contest the suit brought against the school listing to the substitute of the High school corps.

We have employed autorneys to contest the suit brought against the school listing to the High school for over \$19.00, and have paid them \$700 versining fee. The suit is now pending before a referree. All the buildings have been plaured at a rair valuation, and they are in good order and condition; and we are gradified to state that the health of our very large number of punits is and has been excellent for the past year, but three deaths baying occurred among hem for that peried, which is certainly a remarkable record.

The Lumber of teachers actually employed and at work every school day is now eighty, ind there are 331; children in daily attendance.

FINANCES.

In the matter of innance the estimates last very

each, with interest at 5 per cent, psyable semiannually, one bond payable July 1 of each year
until all are paid.

In the matter of kindergarten, the law recently
passed by our state legislature is "permissory,
impowering the school boards to organize kindegartens for children between the ages of four an is
it years, when authorized by the taxpagers to dso. The law is not mandal ory. The views of the
board are, that at present wint our bonded in the indenses at its utmost limit allowed by law, and the
growing outlay necessary for our present school
work, that we would not acvise the adoption of the
sinderfarten system. In case the system was
adopted it would be necessary to add several sural
school buildings, and another and differs to opis
it teachers must be emplored, involving in inmoliste expenditure of from \$15.000 to \$20.000. These
earthers should be several and qualitied by a course
moderate success, which success we believe is
somewhat problemalical, it we consider the reports
from some of the Eastern cities who have it ed
and are now wrestling with this problem. Our saperience has demonstrated that we are colligat to
pay our eighth, or primary grade, teachers a higher
infary than some of the more advanced, grades.
The reason of this is obvious, if requires, greater
reperience to bandle and properly teach children
of 6 years than to teach those a little older,

ASTIMATES FOR THE COMING YEAR.

The sterk then read the report of the additing committee, Mesers. Gillland, Stratton and Church stating that they had examined the books of the clerk and found them correct and had counted the money in his hands and found it to agree with the balance on the books. balance on the books.
On motion of J. W. Whalley the clerk's report and the report of the smilting committee were approved and placed on file.

provest and placed on ble.

TAX OF 35 MILLS LEVIED.

C. A. Do.ph moved that a tax of 34 mills be levited for the maintenance of the schools.

F. C. Smith moved as an amendment that the tax be 3 mills.

J. W. Whalley opposed this. He said that the directors had recommended that the kindergarten system be not tacked on our schools, and slee recommended that ax at 34 mills the levied. On his mutton the report had been adopted and he

thought theirax was already levied. He thought is not a very fair levy and was to favor of it.

The charidecided that it was necessary to put the emerated of Mr. Smith.

D. P. Thompson explained that with a tax of 3 mills the district would not be able to pay off the Stolico indebtroness and would have to curtain excessary expenditures.

Mr. Smith did not see why there should be a surplus. There had hever been any reduction in reachers' salaries for years and everything else had come down. Three mills would harry ins through. He did not see any need of paying any indebtedness. Dr. Chance spoke against the idea of reducing the salaries of educators. Mr. Bydd and every time of expenditures had been lighted on. The board could not get along with three mills.

ills.
The amendment was then put and lost, Mr. Smith alone voting aye.

The original motion was then put and carried

POLICE COURT.

& Rather Lively Session Yesterday, and Many

Who use SOZODONT have only to open their this to prove its excellence. Their white, gleaming, spottless teeth, and fragrant breath will tell the story. There is more demand for this wholesome and unexceptionable preparation than for any other dentifrice in the market.

WHEAT—Fore an markets come through generally higher, no doubt influenced by yestenday's stir on this side, as well as by light coast offerings through the side, as well as by light coast offerings the same of the side, as well as by light coast offerings the same of the side, as well as by light coast offerings the same of the side, as the side, as well as by light coast offerings the same of the side of the same of the eepied as indicating a return of the old level. If deal is on hand as seems quite probable one may look for constant fluctuations in the near future All this is slow to have any effect here. No doubt fome buyers would pay more now than a week ago, but it is equally certain that holders look for much more. Quotations are out of the question. Our market must follow either those of Lingland or San Arganelson. It is now hear San Francisco but England must be ready looked to for influence. OATS-Aone coming and stocks are slowly being reduced A rather firmer market obtains POTATOES—Receipts light past two days Mar

The ollowing legal decument was found, says the Goldendale sen mil, sticking to a gate poet somewhere out on Columbia hills east of No. 0. It was smeared around the edge and spatered over the face with some kind of pand suppreed to represent blood, and in the left band corner was a richite of a man hanging to a scalfold. The herogly hies and phrasectogy is characteristic of the case of clineaus who kenerally presume to take the law into their own hunds in this country whenever they imagine they have a grievance. "Meister Cruwford, We as neighbors crossed you to take the shwap out here by fourth of next manth if not jou will come youp misseng you will seen alight in band day light.
